Re: Tuftonborough – Camp Belknap, Site #198704051

Dear Mr. Locker,

Camp Belknap currently holds Groundwater Discharge Permit #GWP-198704051 and is in the process of closing the lagoon system. I am requesting confirmation that the start-up of the Camp's new pretreatment system, which will initially discharge from the pretreatment tanks into the existing lagoons is in compliance with the current Groundwater Discharge Permit.

If you have any questions please contact me at April.Sargent@RMIREcycles.com or at (603)536-8900.

Sincerely,

April Sargent

CORRESPONDENCE

TUFTONBOROUGH – Camp Belknap, Discharge to Permitted Lagoon
Site# 198704051 / Project#2067 / Activity# 268594

Dear Ms. Sargent:

The NH Department of Environmental Services (NHDES) is in receipt of your May 13, 2019 letter submitted on behalf of Camp Belknap to discharge wastewater treatment system start-up wastewater to the existing lagoon.

The existing lagoons are currently permitted to receive wastewater generated at this site. Discharge from treatment units into the lagoon is acceptable and is in compliance with the permit

If there are questions concerning this correspondence or you wish to discuss the further please contact me by phone at (603) 271-2858 or by e-mail at mitchell.locker@des.nh.gov.

Sincerely,

Mitchell D. Locker
